

Instructions for stitching the FSL-Beautiful-Angels-2-5x7-EC-NLS

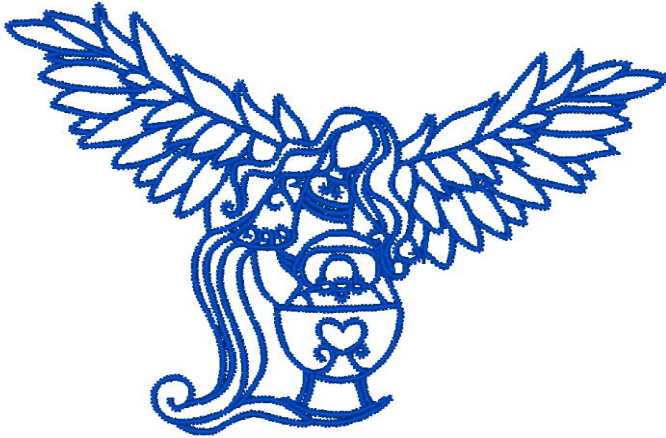

Screen Shots of designs are included so you can tell which number refers to which angel.

Sew these designs as you would any Free Standing Lace, but use a **double layer of water-soluble stabilizer**.

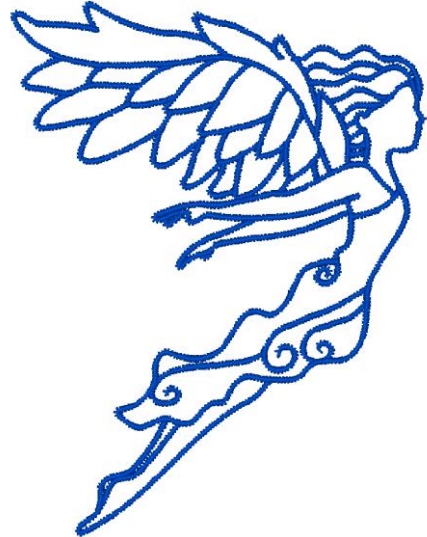

When removing designs from water, place them on paper toweling to remove most of the water. Dry them between clean, white fabric (not terrycloth), making sure to carefully move the parts into place. Place something heavy on top of the fabric containing the wet design. When dry, remove from between fabric and designs are complete. I stitched all designs in white, but any color can be used. just make sure to use the same color in bobbin as in needle.
