- 3.

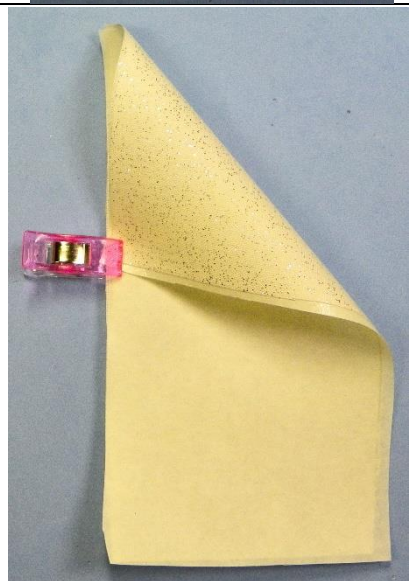

4. Prepare materials as indicated in the Materials/Cutting Chart on page 2.

Felt-backed, vinyl, tablecloth material  
Puffy Foam  
Heat-N-Bond Lite  
Front Fabric

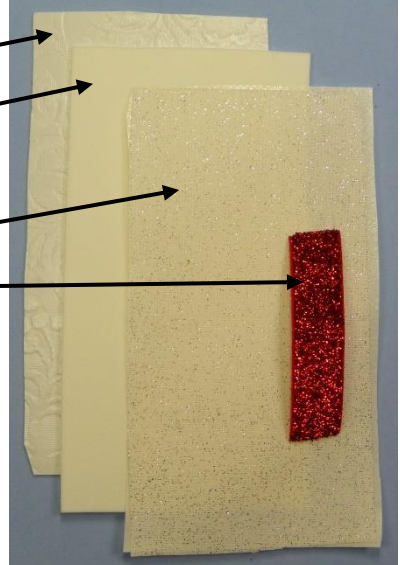

5. Fuse the Heat-N-Bond Lite to the wrong side of the front fabric.

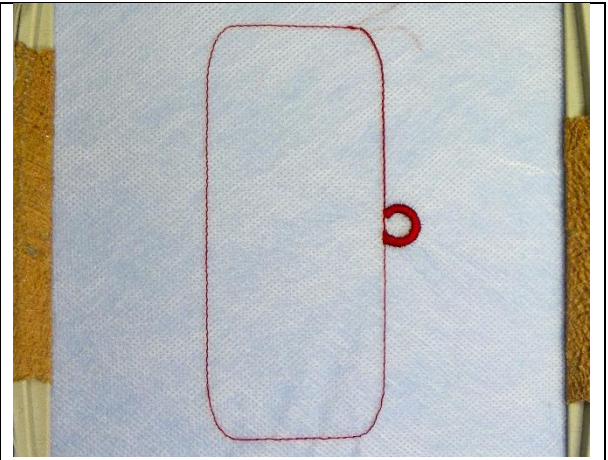

6. You should now have all the needed pieces for the ornament.

Vinyl piece  
Foam Piece  
Front Fabric, piece with Heat-N-Bond  
Elastic Ribbon

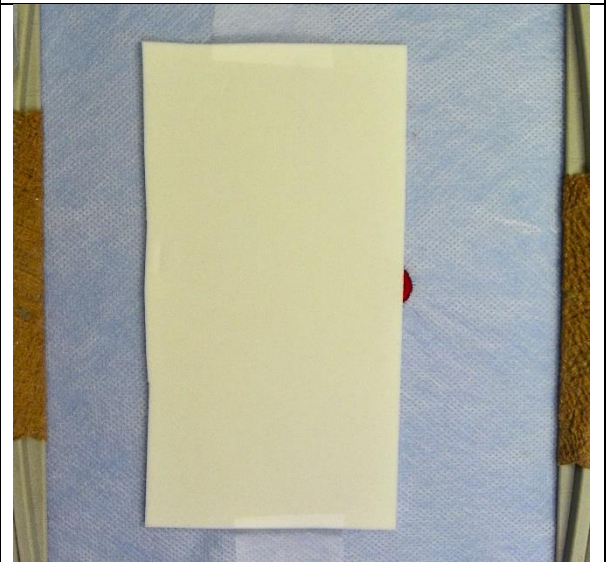

7. Change needle and bobbin thread to red and sew #1 in the Color Sequence Chart. These stitches will create the ornament hanger and placement stitches.

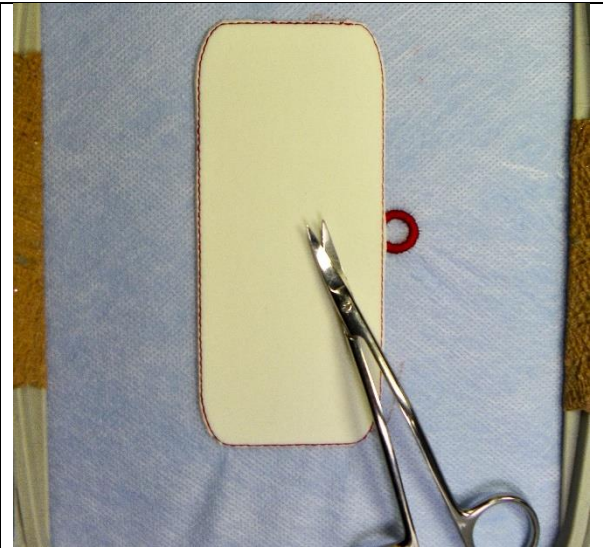

8. Remove hoop from machine, place on a flat surface, place the foam piece over the placement stitches and secure with tape at top and bottom of foam.

9. Return hoop to machine and sew #2 in the Color Sequence Chart. These stitches will attach the foam piece to the stabilizer.

10. Remove hoop from machine, place on a flat surface and using sharp scissors, cut away excess foam from around the ornament.

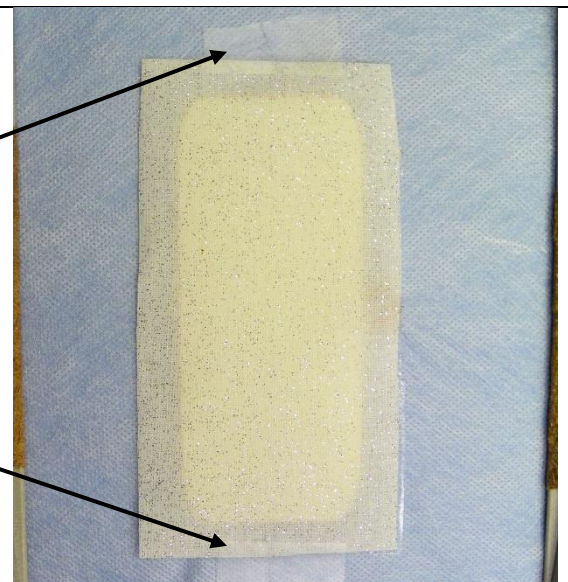

11. Remove paper backing from front, fabric piece.

12. Place the front, fabric piece over the foam area, with right side of fabric facing up.  
13. Secure with tape at top and bottom of fabric.

Tape

14. Return hoop to machine and sew #3 in the Color Sequence Chart. These stitches will attach the front fabric to the foam and stabilizer.

15. Change both bobbin and needle thread to white and sew #4 in the Color Sequence Chart. These stitches will create the white parts of the candy canes.

16. Change needle thread to red (leave white bobbin thread in place) and sew #5 in the color Sequence Chart. These stitches will create the red parts of the candy canes and the text.

17. Remove hoop, place on a flat surface with the hoop up-side down (back of hoop up).
18. Trim all thread tails.

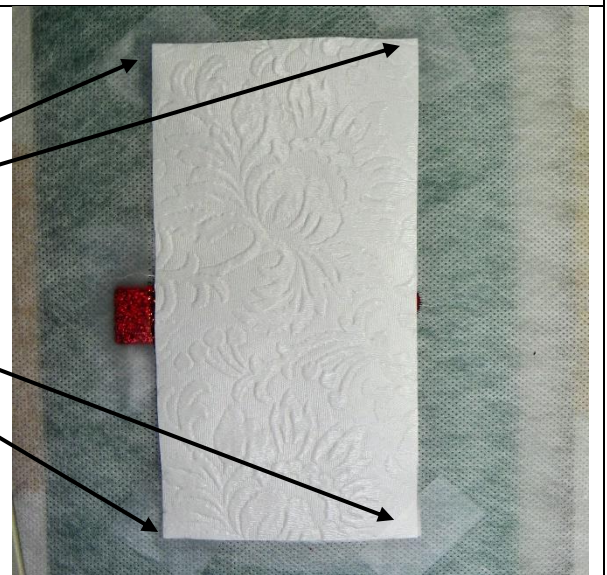

19. Fold the Elastic Ribbon in half. Have one of the loose ends just a bit below the other loose end.

21. The Elastic Ribbon should measure  $\frac{3}{4}$  of an inch below the bottom stitching line of the ornament.
22. Tape at top and bottom of Elastic Ribbon. The tape at the top of the Elastic Ribbon will remain inside the ornament-so don't use lots of tape here.

Tape

23. Place the vinyl backing over the ornament back and tape in all four corners.

29. Needle and bobbin thread should still be red.  
30. Return hoop to machine and sew #7 in the Color Sequence Chart. These stitches will create the satin border around the ornament.

31. Remove hoop from machine and project from hoop.
