POTW - Spring Bowls

· Sunday, March 11th, 2012

by Rhonda

Materials:

tear away stabilizer, med or heavy
thread to match colors
cloth to match project. 14 pieces approx 4 1/2 " square
Mylar
applique scraps

General instructions for each piece

placement stitch:

stitches out an outline. This can be cut out for and stitched again or after stitching, place material over the top of the stitching line. I prefer a child's washable glue stick to secure in place.(the child's washable glues stick does not gum up the needle like some adhesives)

tack down stitch:

this tacks down the applique material, or Mylar.
after stitching remove from hoop and carefully trim around material getting as close as you can without cutting thread.

Zig zag tack down stitch:

this makes a good zig zag stitch around raw edges to secure them.

Bottom of Piece:

remove Hoop from Machine (DO NOT REMOVE MATERIAL FROM HOOP)
with glue stick, glue material to the bottom of the design area. This will be the inside of the bowl material, or outside, you choose.

return hoop to machine and stitch the tack down stitch.

remove hoop from machine, turn over and carefully trim around material

return hoop to machine and continue with design.
