

Toy pillow Fox.

Necessary materials:

You can use any fabric, but consider that it is for a child, so it is better to have natural ones. Pre-recommended to glue the fabric with interlining, to preserve the shape after washing, but you can also miss this point. You will also need a tear-off stabilizer in the hoop, embroidery thread, temporary fix glue or

double sided tape. In this example, used pre-taped materials - fleece.

1 preparation of materials for work.

2 material for embroidery is fixed to the stabilizer with temporary fixation glue or onto double sided tape, we lay the fabric face up, embroider the contour

3 contour embroidery

4 put the fabric on the contour of the parts

5 fasten the fabric with zigzag stitching

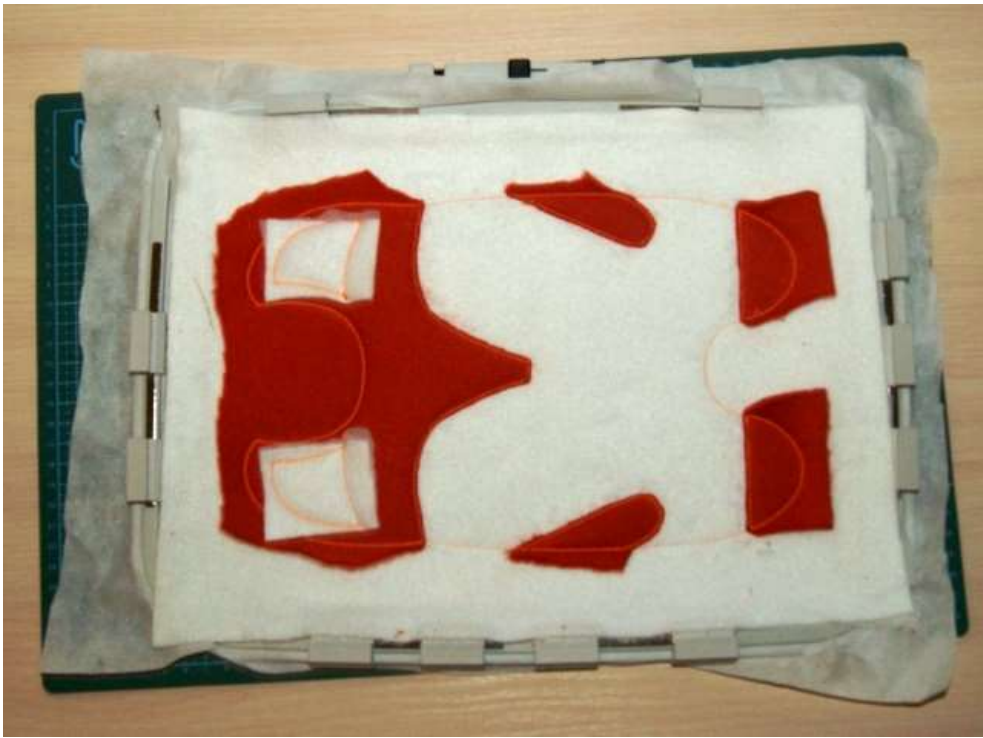

6 remove the excess fabric, the fabric that goes beyond the contours of the toy is not necessary removing, will be cut off at the end of the work.

7 embroider the contour of the ears

8 impose a cloth on the contour of the ears and make a zigzag stitch line

9 excess tissue is removed

10 finishing stitch of the face, paws

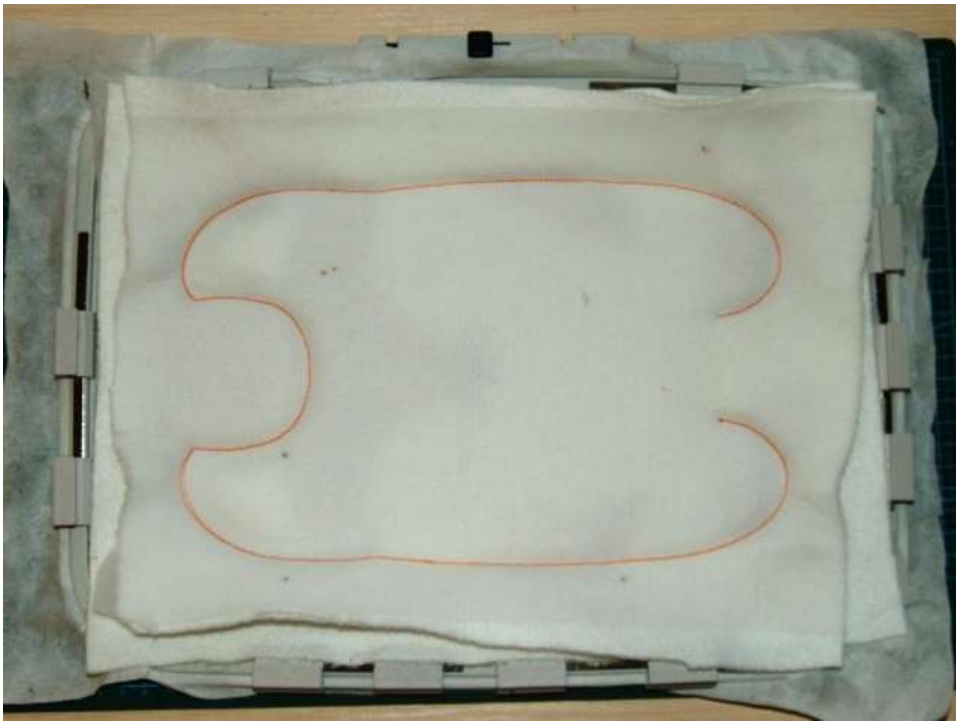

11 finishing stitch, embroidery peephole and spout

12 top put the fabric for the back of the toy, face down

13 make the final line, fixing the front and back sides of the toy.

14 We take out the embroidery from the hoop, remove the excess fabric, retreating from the contour of the toy 0.5 cm. Turn out the toy through an unsewn hole.

15 Ironed

At this stage, who decided to leave the toy in the form of a comforter-toy, sew up a hole for turning out. Or you can fill the toy with a holofiber, and then sew a hole, it turns out a toy cushion fox

admire a toy !!! )))
