

## Fox bib

Necessary materials. You can use any fabric, but consider that it is for a child, so it is better to have natural ones. Pre-recommended to glue interlining, to preserve the shape after washing, but you can skip this point. You will also need a tear-off stabilizer in the hoop, embroidery threads, ribbon, temporary fix adhesive or double-sided tape.

1 Preparation of materials for work.

2 Put tear-off stabilizer in the hoops, apply double-sided tape to the stabilizer or temporary glue adhesive, then apply the main fabric face up and embroider the first color - outline, you can immediately embroider and the second color - outline of the nose and ears.

3 on the contour of the ears and nose, impose the appropriate fabric

4 make fixing lines, it is immediately more convenient to cut off excess fabric in the area of the nose, in the area of the ears it is possible later or immediately.

5 cheek contour

6 on the contour put a fabric for the cheeks, fixing line

7 remove the excess fabric. beyond the edge of the bib contour, need not removed, it will be remove all together before the finished bib.

8 embroider with sateen roller a contour of ears and a nose and eyes

9 Before the finishing stitches, you must attach the tapes, it is better to use double-sided tape or masking tape (both are removed without a trace), and fasten tapes to it.

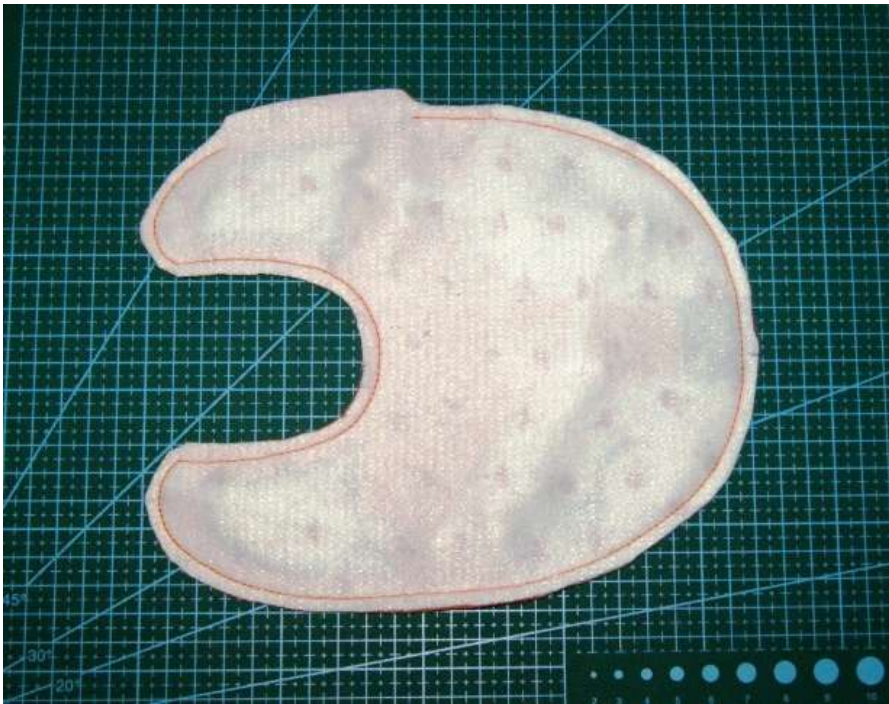

10 on top put the back of the bib, face side inside

11 embroider the final color, the line connecting the front and back sides of the bib.

12 remove the excess fabric along the contour and turn it out through the open hole

13 All align, sew the hole for turning out. Iron.

admire!)))
