

Comforter toy Fox

Necessary materials:

You can use any fabric, but consider that it is for a child, so it is better to have natural ones. Pre-recommended to glue interlining to preserve the shape after washing, but you can also miss this point. You will also need

In this example, pre-taped materials are used - fleece, velor. The back side of the comforter for the volume is taped with a thin glue synthetic winterizer. For ease of attachment to the paws, the ribbons are already assembled on double-sided tape. First legs and tail are embroidered, if hoops allow, these details can be embroidered together. A tear-off stabilizer in the embroidery hoop, embroidery threads, ribbons for eyelets, but you can also arrange the legs without them, temporary fixation glue or double-sided tape.

1 preparation of materials for work.

2 contour of the tail

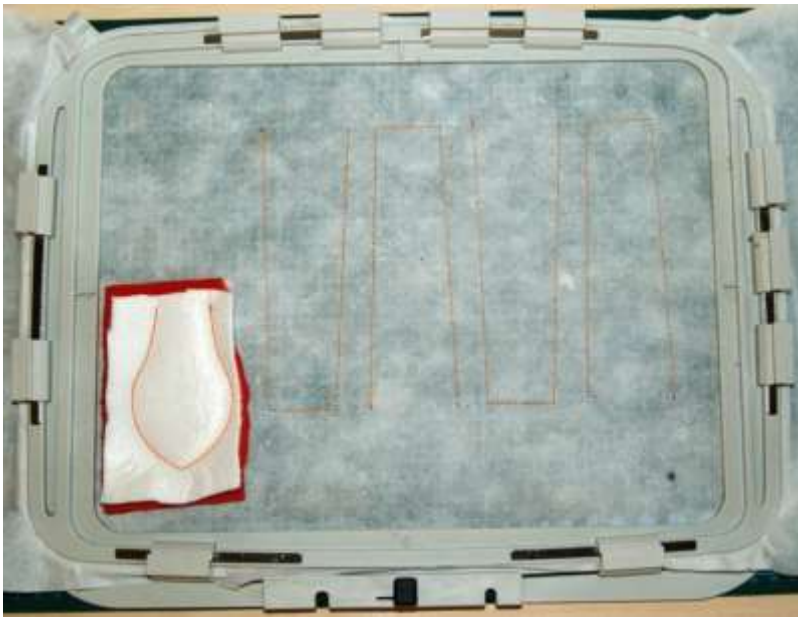

3 put the tail fabric face up on the contour and fasten with a stitching line.

4 on top fix the second part of the tail, face down.

5 embroidery line connecting both parts of the tail, and you can immediately embroider the outline of the legs

6 put the cloth for the paws face side up

7 do the fixing stitch

8 if we use a color ribbons on the paws, then at this stage we fix the blanks with double-sided tape and masking tape

9 put on top, the second fabric for paws, face side down

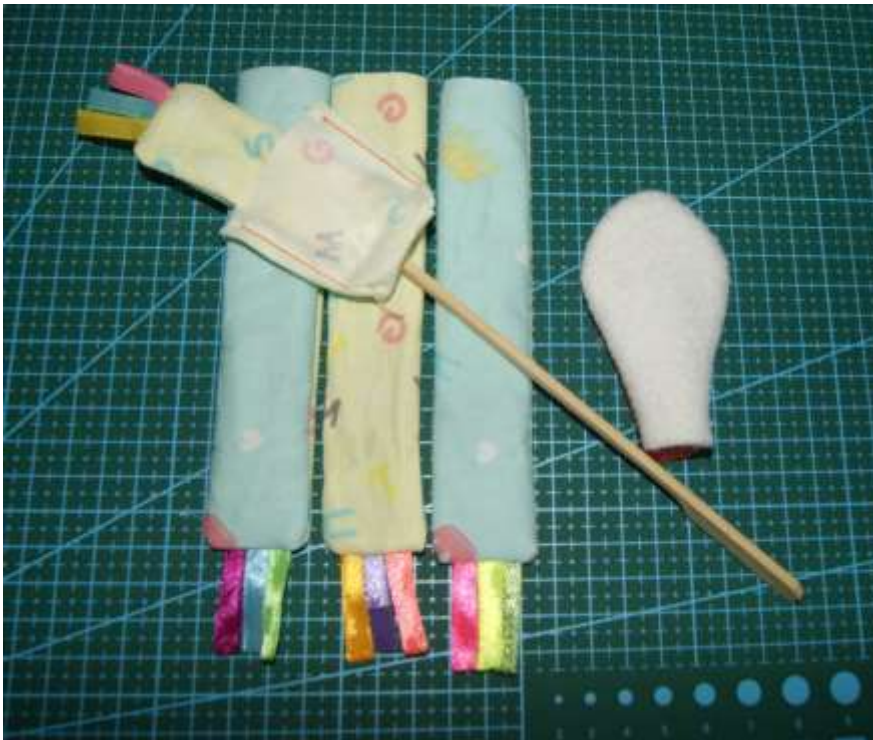

10 embroider the connecting line

11 remove the embroidery from the hoop, remove the excess stabilizer and cut out the details of the legs and tail along the contour, departing 0.5 cm from the seam

12 turn out the finished parts

13 at this stage, we determine what the legs will be, if they are tied, then nothing is cut off, if the knot is not planned, then the excess can be cut off.

14 embroider the toy-comforter's body. Put the tear-off stabilizer in the hoop, fix the fabric for the outer part of the face side up on a double-sided tape or temporary fixation glue, fasten the embroidery frame to the machine and embroider the retaining contour line, you can immediately embroider the outline of the face.

15 put a fabric for the face on the contour, sew a zigzag and remove the excess fabric, it is not necessary to remove the excess fabric behind the toy contour, they will be cut off at the final stage

16 eye contour

17 put a fabric for the ears on the contour and embroider the zig-zag, without taking out the hoop at once, you can embroider the contour of the heart - this is an element of decor and you can skip this point;

18 put the fabric for the heart decor

19 zigzag reinforcement stitch, excess fabric is removed along the contour

20 embroidery satin stitch of the heart

21 embroidery satin stitch of the ears and eyes

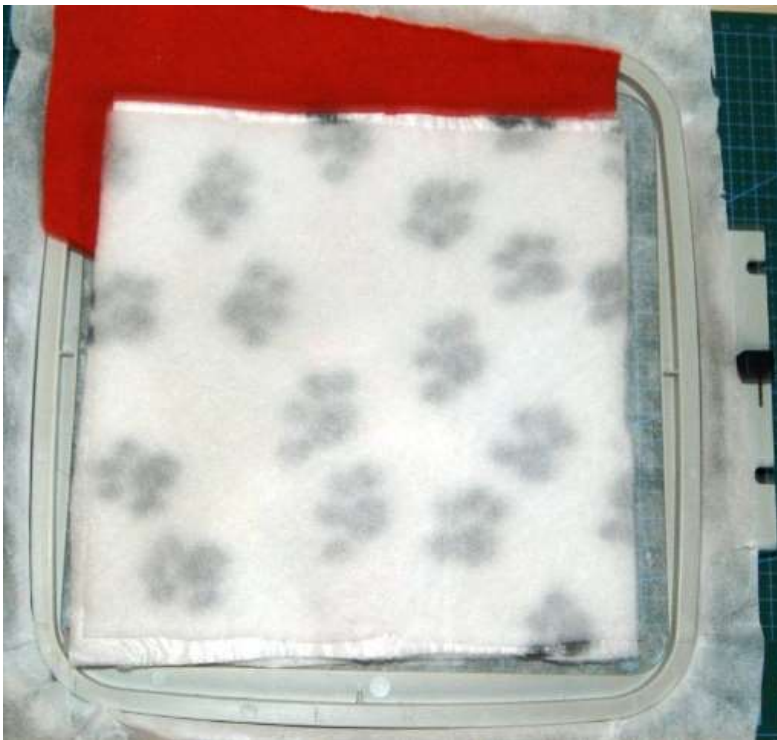

22 prepare the tail and legs for assembly with a little body, for this it is better to use double-sided tape

23 fasten tail and legs on the body of the comforter body

24 put on top, the back part of the toy face side inside

25 make the final line connecting the parts of the toy.

26 remove the embroidery from the hoop, remove the excess stabilizer

27 cut off excess fabric, retreating from the contour by 0.5 cm

28 turn out the toy on the front side, straighten, sew up the hole for turning out, iron

Admire!!!)))
