

Educational toy made of felt « Rabbit»

Embroidery game basics:

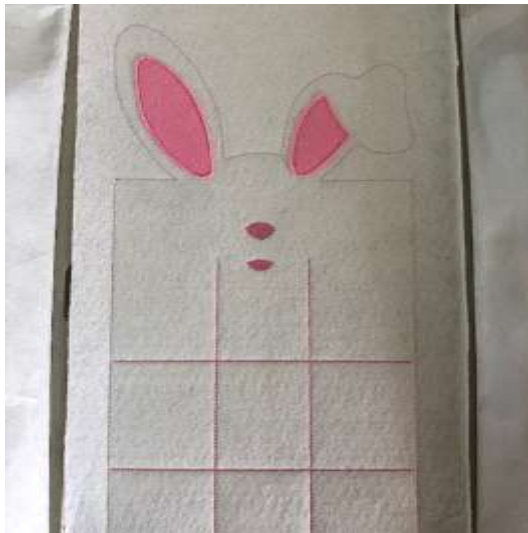

1. Place a tough breakaway stabilizer in the hoop, put felt on top, you can use glue spray. Embroidery 1 color – outline

2. The second color shows the location of the appliqué, after embroidering the second color, attach pink felt to the indicated places

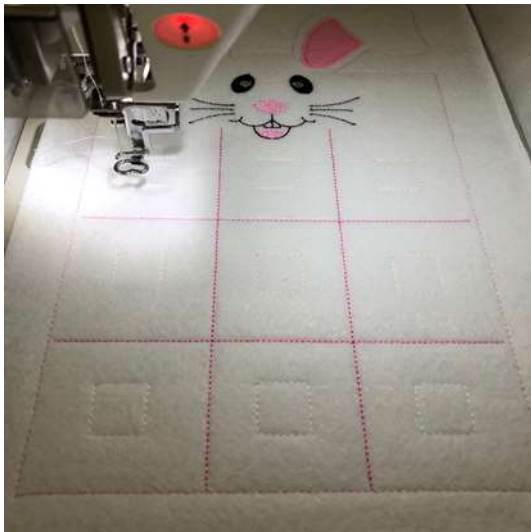

3. After embroidery of the third color, trim the remains of the felt, departing from the line about 1 mm.

4. Embroider 4 and 5 colors

5. Embroider the sixth color, which will indicate the location of Velcro

- After that, cut the pieces of velcro (soft part), about the size of embroidered squares. Put velcro on the indicated places.

6. 7-15 colors sew Velcro. When embroidering these colors, use a thread of the one color. Different colors in the program are made to make the machine stop

7. Attach a second piece of felt underneath the frame (you can use glue spray) and embroider 16 color, that will sew two pieces together

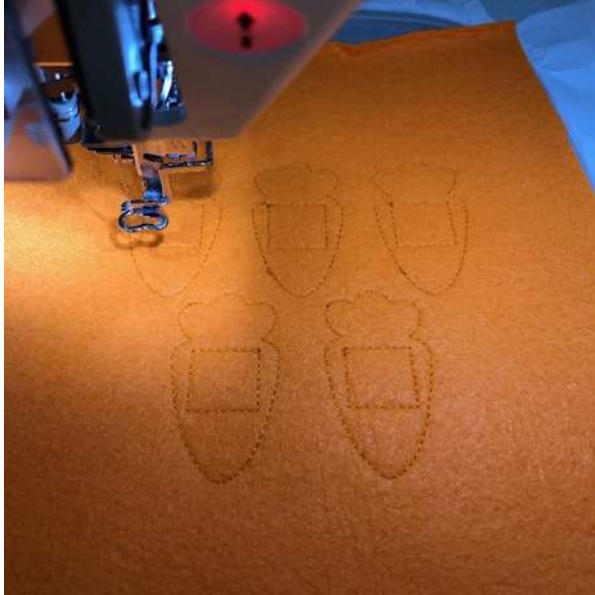

8. Embroider the final satin stitch (17 color)

9. Remove the embroidery from the hoop, cut off the excess felt along the contour.

Embroidery carrots:

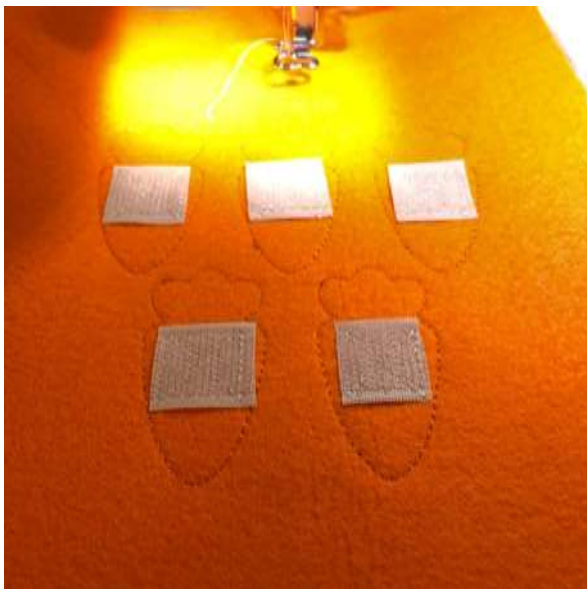

1. First we embroider the back side of carrots.

1. Place a tough breakaway stabilizer in the hoop, put felt on top, you can use glue spray. Embroidery 1 color - carrot outline
