

## INSTRUCTION

1. Download the design from the website to your computer.
2. Unzip the file. Upload the embroidery file to your machine.
3. Hoop 2 layers of water-soluble mesh. Embroidery the design.
4. Rinse the stabilizer in lukewarm water and leave to air dry. Press with steam.

5. Sew or install the accessories for decoration.

### It is important

Always make a test stitch-out of the design and wash away the stabilizer. This helps you to select the threads, needles, stabilizers and settings of your machine correctly.

To get 2-sided embroidery you should use the same thread for the needle thread and bobbin thread.

Thank you for your purchase.
