If you resize or modify this design in any way, I can't guarantee a quality point.

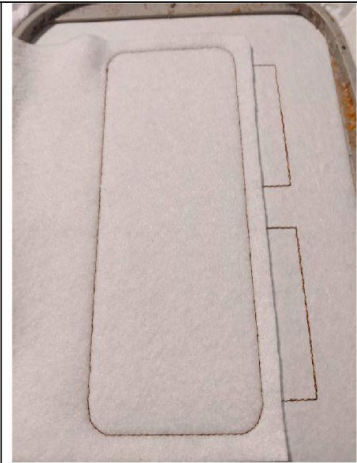

Bag

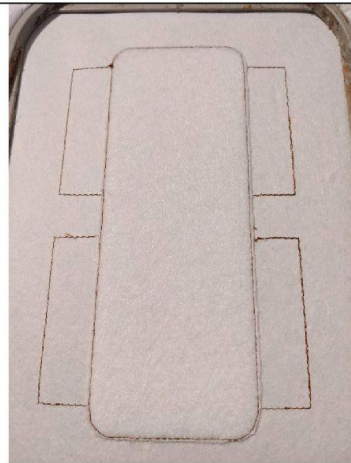

The first seam is done on your support to tell you the location of your fabric

Put your fleece on the center part only

This seam will hold your fleece on your support

Remove excess fleece

Put your first piece of felt on the entire seam

This seam will hold your felt in place

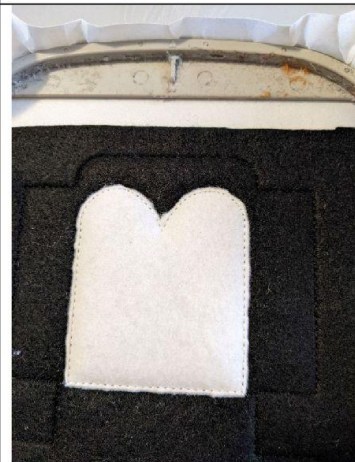

This seam tells you the location of your felt

Put your felt on the seam

This seam will hold your felt in place

Remove excess tissue all around

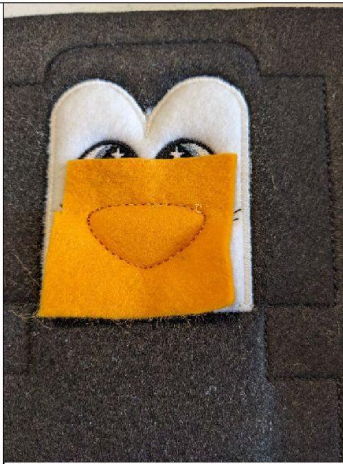

Bumblebee and embroidery stitch

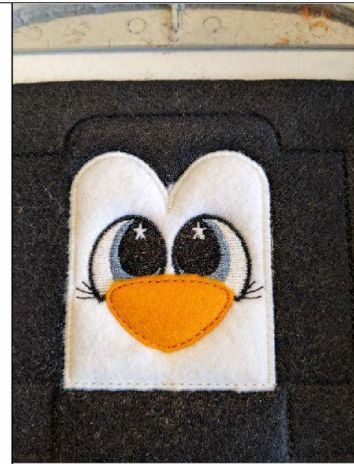

This seam tells you the location of your felt

Put your felt on the seam

This seam will hold your felt in place

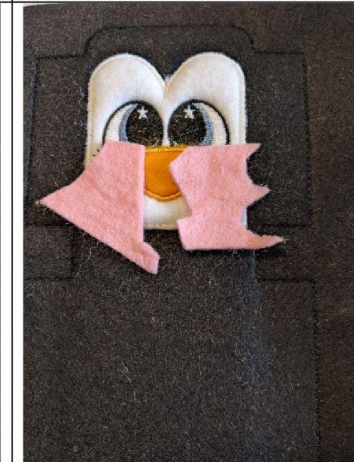

Remove excess tissue all around

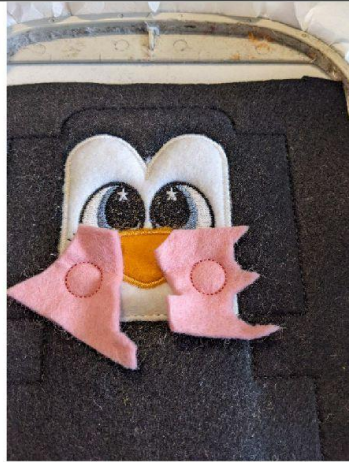

Bumblebee point

This seam tells you the location of your felt

Put your felt on the seam

This seam will hold your felt in place

Remove excess tissue all around

Bumblebee point

Set up your ribbons for handles, you need to put your ribbon on the back of your frame. Pay attention to the meaning of your ribbon

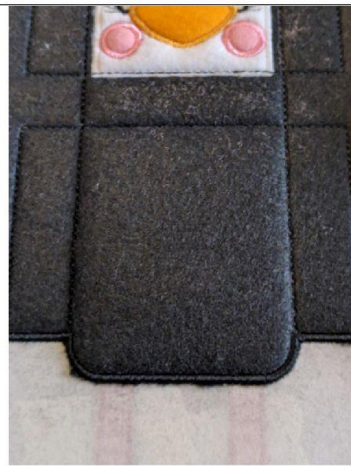

Put your^{2nd} piece of felt on the back and do the sewing.

Well hold in place, you can see here that my felt was not well maintained

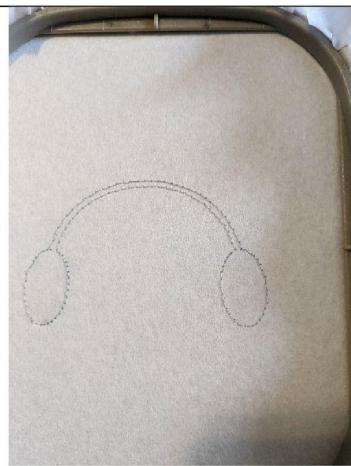

Cut the excess fabric on the top and bottom of the bag only on the front and back of the frame

Get out of your frame, cut the excess fabric all around

Making the bumblebee point

DECORATION BAG PINGUIN

The first seam is done on your support to tell you the location of your fleece

Put your fleece on the seam

This seam will hold your fleece on your support

Cut off excess fleece all around

Put your red felt on the back of the frame, hold well in place

Put your piece of red felt on the front of your work

This seam will join your 2 felts together

Remove excess felt all the way around on the front and back of your work

Bumblebee Points

Put your fabric for the buckle on the back of your frame taking care to hold well

Put your fabric on the front of your work, on the buckle only make the next seam that will bring together the 2 pieces together

Cut off excess fabric

Bumblebee point

Getting out of the box

ASSEMBLY

With your hot glue rifle, stick the items on your bag, taking care not to stick to the sides of the bag

Glue the sides together, the front side of the bag sticks to the back side of the bag for a nice finish
