Make the first seam on your stand to tell you the location of your vinyl, arms, legs and felt

Put your small piece of vinyl on the part of the oval

This seam will hold your vinyl in place, cut the excess all the way around

Put on your felt, taking care to hide all the seam

This seam will hold your felt in place and tells you which part of felt to remove on the oval

Make the embroidery stitches until the penultimate seam

Remove the felt from your vinyl

Turn your work and on the reverse remove your support on the part that is on the vinyl

Put your^{2nd} piece of felt on the back of your frame taking care to hide all the seam, keep in place

Make the last seam that will join your 2 felts together

Get out of the frame and cut off the excess felt all around. On the back you have to cut as for the front.

With a poinçon make a hole in the center of the small round at the top. Put the sweets and close with a small loop
