

SNOWMAN CANDY BAG

FRAME 10X10CM

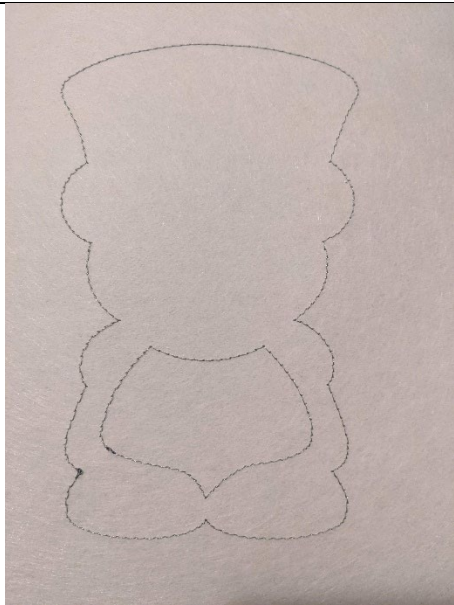

Materials:

2 pieces of white felt 8x11cm high

Small piece of vinyl for the window

Ribbon

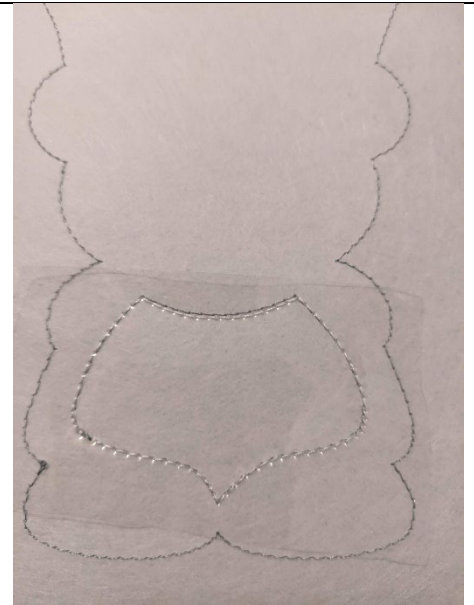

If you resize or modify this design in any way, I can't guarantee a quality point.

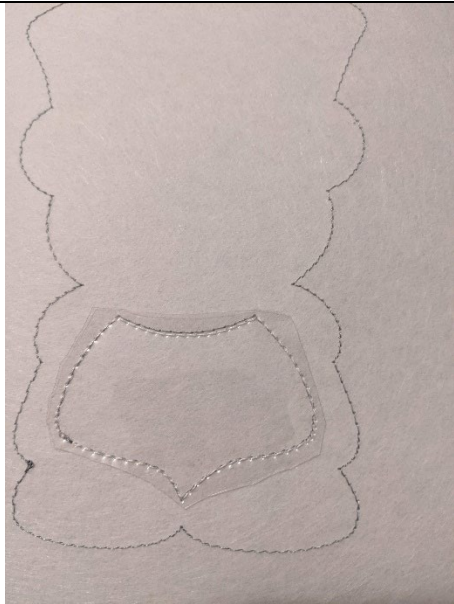

The first seam is done on your support to tell you the location of your felt and vinyl

Put your vinyl on the ash part (belly)

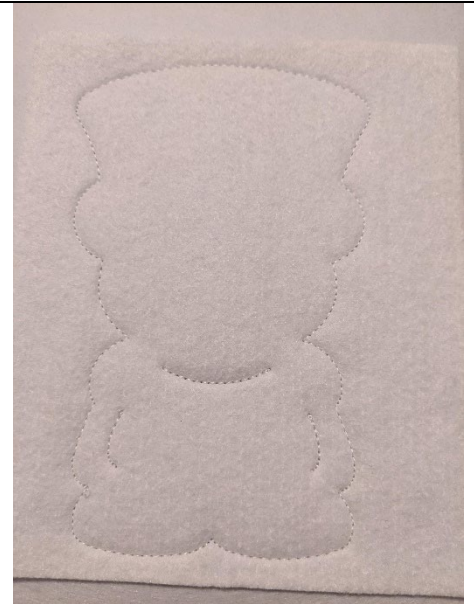

This seam will hold your vinyl in place

Cut excess vinyl

Put your piece of felt on the first seam, taking care to hide all the seam

This seam will hold your felt on your support

Make the embroidery stitches until the penultimate seam (inclusive)

Before making the last seam, remove the felt that is in the center of your belly

Turn your project so that it is upside down, remove your support in the center of the belly

Put your<sup>2nd</sup> piece of felt on the back of your project taking care to hide all the seam and hold in place

Make the last seam. This seam will join your 2 felts together.

Get out of the frame and cut the excess fabric.

You can take a poinçon to make the hole to pass a ribbon in it

Make the edge-to-edge  
hole in front and back

Fill with candy and put  
the ribbon in it
