9 pieces of fleece 15x19cm high

1 sheet of each color of 20x30cm high of superior quality

- Rose
- Black
- White
- Blue
- Orange
- Yellow
- Green
- Purple

Decouplable support

All Pennants are made in the same way, here I show you 1 pennant

Seam 1: is done on your support to tell you the location of your fleece

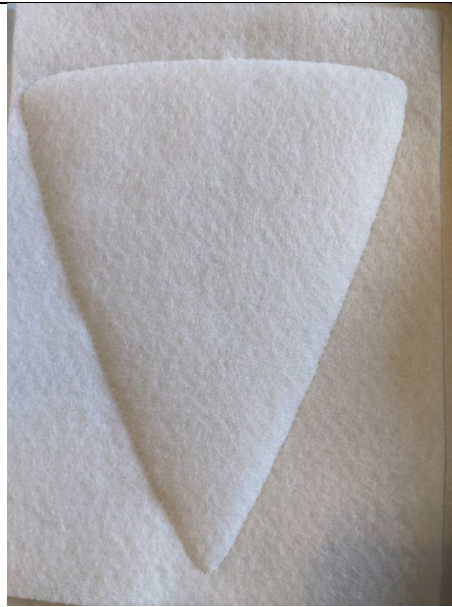

Put your fleece on the seam and make the following seam that will hold your fleece on your support

Cut off excess fleece

Put your basic white felt

Make the next seam that will hold your felt on your support

Put your colored felt

This seam will hold your colored felt on your white felt

Cut off the excess of your colored felt

The next seam shows you the location for your felt

Put your top quality felt on the seam

Make the next seam and remove the excess fabric all around

Continue this way for each colored item

Here all the elements are in place

Make the bou rond points for each color

Once the bumblebee points are finished, take a piece of basic quality white felt and put on the back of your project. Keep in place

The last seam will cost your 2 basic white felts together with a triple seam.

You should have this on the other side of your project.

Get out of the frame and cut all the way near the triple seam, taking care not to cut the seam.

Keep making the other pennants with the same method.
