Step 16:

We put all the pieces together.

Step 17:

With the help of a needle and thread or some type of textile glue, join the tabs located at the ends, taking the external backstitch as a reference, then fold the central tab (the one with a triangular shape) covering the union between the previously joined tabs. Attach the basket handle to the end of the central tab from one end to the other and finally fix the rabbit's face in the center, thus covering the junction between the tabs and the basket handle, as suggested by the reference image. Use complementary decoration. Have fun doing this beautiful project
