

Felt Foodies Camping

Designed by Designs By Rhonda

These instructions will give you the basic skills to be able to stitch my Felt Foodie designs

Step1: Hoop the stabilizer. Stitch the outline

Step 2: Tack Down Stitch

Place a piece of felt over the outline stitch. Secure with tape, pins or glue stick.

Step 3: Back of design

Remove hoop from machine. Do NOT remove the design from the hoop. Turn the hoop over so that you are looking at the bottom of the hoop. Secure a piece of felt over the design area.

Return the hoop to the machine and stitch the tack down stitch.

Step 4: After you have finished stitching all the colors in the design. Remove the design from the hoop and trim around the design.

For Stuffing some of the Felt Foodies, stuff according to the picture below.

You'll need batting, Liquid Stitch or other permanent glue, a tool or knitting needle to push the stuffing into the design and a clip to hold the edges together while drying. You can also simply stitch the edges together.

Now that you have the basics, we'll work with each individual design.
