

Fill jars with treats or any small gifts.

Attach to cute Candy Bags and write Names on them.

Make them into a Necklace

Great to write a child's Name and with a large Safety Pin, pin to Childs costume. Write your address or phone number in case child becomes lost.

Endless uses.

Materials:

Several colors of Felt

Tear away Stabilizer

Blackboard contact paper. Can be found in roles from Amazon and craft stores.

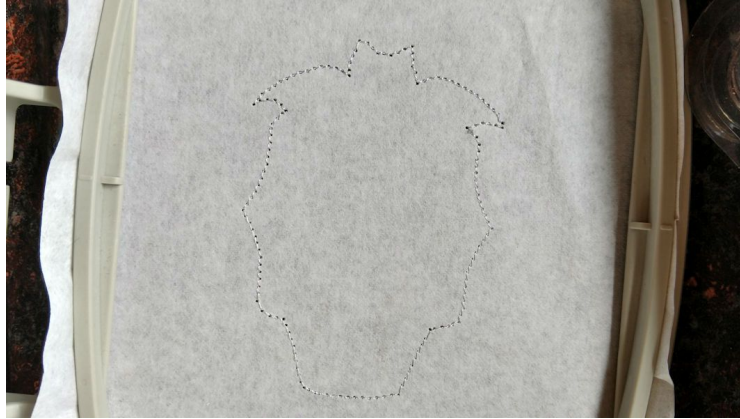

Chalk or Chalk Pen for message on Tag.

Basic Instructions:

Hoop tear away stabilizer

Color 1: stitch on the stabilizer. This is the outline for the Tag.

Remove hoop from machine and cover area with color of felt of your choice.

Color 2: Stitch on Felt, this is the tack down stitch.

You can trim felt after the tag is finished.

Color 3: outline stitch for the center hole.

remove hoop from machine and trim away the felt from the inside of the hole.

## Instructions for the Back Piece and Blackboard Contact Paper.

Remove hoop from machine

Carefully remove the stabilizer inside the center.

Measure the design area and cut a piece of Felt and Blackboard paper to fit.

Peel the backing off of the Blackboard Contact paper and attach it to the front of the felt piece for back.

Turn the hoop over and tape the felt with the blackboard piece facing down or towards the design.

Return hoop to machine and stitch according to the design.

Sample on how to do entire designs.  
Please follow the text instructions for the rest of the  
designs.

Halloweenbhtag\_001

BAT

- 1: Follow Basics, outline stitch on stabilizer
- 2: Follow Basics, tack down stitch on felt
- 3: (thread color to match) outline stitch for the center hole.  
remove hoop from machine and trim away the felt from the  
inside of the hole.
- 4: Outline placement Stitch for Bat
- 5: Place Black Felt over Bat area, stitch tack down using  
matching thread.

**Follow Basics for Back**

6: Black or Color of Bat, stitch around outside of Bat.

7: Color of felt or contrasting color, Stitch around outside of lower tag.

Next 2 colors can be the same thread as satin stitching.

8: Outline for holes

remove hoop from machine and carefully cut out the centers of holes

If desired, you can use a hole punch after the design is finished or use a needle threaded with ribbon or cord.

9: Satin stitch Ring

Remove from hoop and trim around tag.

### **Fang Mouth**

Hoop tear away stabilizer

1: stitch on the stabilizer. This is the outline for the Tag.  
remove hoop from machine and cover area with color of felt of your choice

2: (thread color to match) Stitch on Felt, this is the tack down stitch.

You can trim felt after the tag is finished.

3: (thread color to match) outline stitch for the center hole.

4: White for Teeth (If your white doesn't have full coverage, it is most likely due to a thinner thread than what was used in the digitizing. Light colors on Dark have this tendency. Simply stitch over the teeth again.)  
remove hoop from machine and trim away the felt from the inside of the hole.

### **Follow Basic instructions for Back**

5: (thread color to match) tack down outline stitch for Tag

7: (thread color to match) Outline stitch for Ribbon holes.

remove hoop from machine and carefully cut out the centers of holes

If desired, you can use a hole punch after the design is finished or use a needle threaded with ribbon or cord.

Remove from and trim along the outside of the Tag.

## **halloweenbbtag\_004**

### **Creepy Hand**

- 1: Follow Basics, outline stitch on stabilizer
- 2: Follow Basics, tack down stitch on felt
- 3: (thread color to match) outline stitch for the center hole.  
remove hoop from machine and trim away the felt from the inside of the hole.
- 4: Outline placement Stitch for Hand
- 5: Place Green or other color of Felt over Hand area, stitch tack down and detail using darker thread that matches.
- 6: Red or color of choice for finger nails.

### **Follow Basics for Back**

- 7: (thread color to match) tack down outline stitch for Tag and inner ring.
- 8: (thread color to match) Outline stitch for Ribbon holes.  
remove hoop from machine and carefully cut out the centers of holes  
If desired, you can use a hole punch after the design is finished or use a needle threaded with ribbon or cord.
- 9: (thread color to match) Satin stitch Ring

## Halloweenbbtag\_005

### Tombstone

- 1: Follow Basics, outline stitch on stabilizer
- 2: Follow Basics, tack down stitch on felt
- 3: (thread color to match) outline stitch for the center hole.  
remove hoop from machine and trim away the felt from the inside of the hole.

### Follow Basics for Back

- 4: Tack Down and Detail for back piece and details on front. Use a different shade of matching thread.
  - 5: (thread color to match) Outline stitch for Ribbon holes.  
remove hoop from machine and carefully cut out the centers of holes
- If desired, you can use a hole punch after the design is finished or use a needle threaded with ribbon or cord.
- 6: (thread color to match) Satin stitch Ring
  - 7: (thread color to match) Tack Down for Felt Grass Strip.  
To make strip, cut out a length of green felt to fit across the design bottom, make it as tall as you want the grass.  
Cut the top of felt to look like grass.
