

## My Pet Barrettes

What you will need:

Hair clips

Bobbin thread that matches top thread

Embroidery threads

2 2" x 3" pieces of felt (approx)

Small 1 ½" square pieces of felt for animals

Tear away Stabilizer

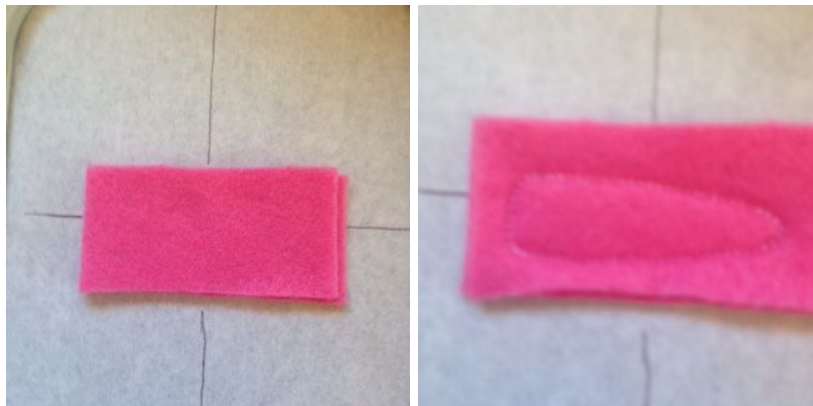

Hoop the stabilizer.

Mark the center of your hoop as shown.

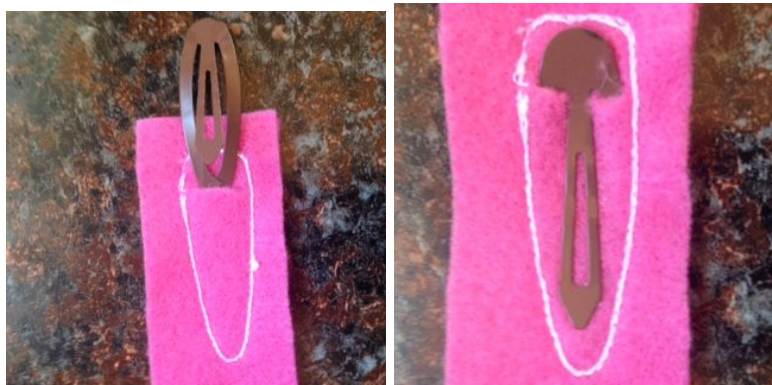

Stitch the 1st color (remember to have your bobbin thread match your top thread).

Place **both** pieces of felt over the stitch line, making sure that the piece is larger than the stitched outline. Tape in place.

Stitch the next color stitch and remove from hoop. Carefully tear the stabilizer off the back of the hair clip piece. Cut a slit in the back for the clip. Trim around the felt as desired. Insert the larger part of the clip into the slit.

You will need a very small piece of velcro in order to place the decoration onto the hair clip. You can just glue them on, but with velcro they can be mixed and matched. Glue the hook side on to the decoration and the soft side onto the clip.

Making the decorations:

Secure the small piece of felt in the center of the hoop.

Stitch according to the color chart for that design.
