Materials/Cutting Chart

Materials	Number of Cuts	Size of Cuts
Fabric	1 cut 2 cuts	Front: 5.25 x 5.25 inches Back: 5.25 x 5.25 inches
Heat-N-Bond Lite	2 cuts	5.25 x 5.25 inches
Puffy Foam	1 cut	5.25 x 5.25 inches
Threads	Choice of Colors	
Water-Soluble Stabilizer	Enough for 1-5 x 7 inch hooping	

The Color Sequence Chart below will be referenced throughout these instructions.

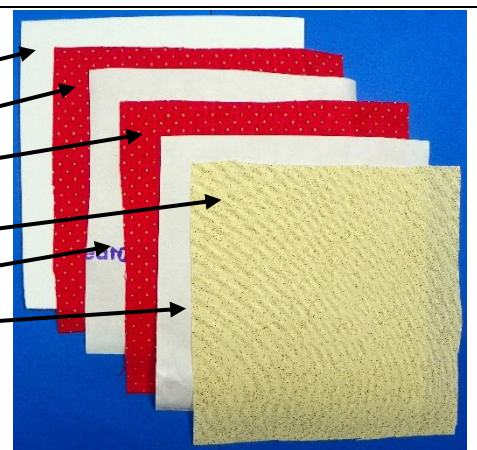

Color Sequence:

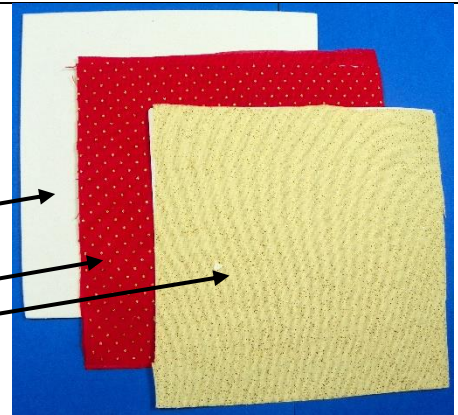

Printed by Generations(TM), Copyright: 2002-2007, All Rights Reserved.

1. Prepare materials as indicated in the Materials/Cutting Chart.

Puffy Foam
Back Fabric
Front Fabric
Heat-N-Bond Lite

2. Fuse the Heat-N-Bond to the fabric back and front pieces.
3. Fuse the second back fabric piece to the first creating a sandwich: Fabric, Heat-N-Bond, Fabric.
4. You should now have three pieces ready to use.
 - Puffy Foam
 - Fused Back Fabric Pieces
 - Fused Front Piece

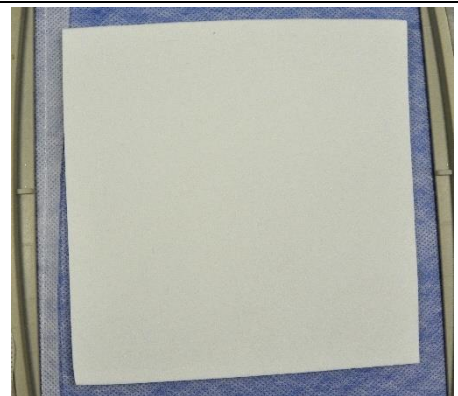

5. Hoop one layer of water-soluble stabilizer in a 5 x 7 inch embroidery hoop and attach to machine.
6. Send design file to embroidery machine.

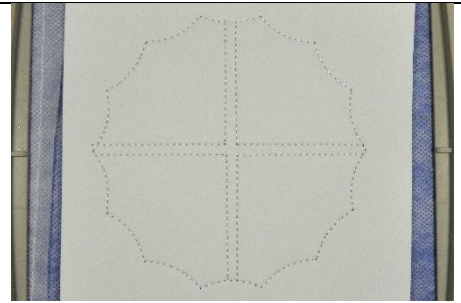

7. Sew #1 in the Color Sequence Chart. These stitches will create the placement stitches for the drink marker.

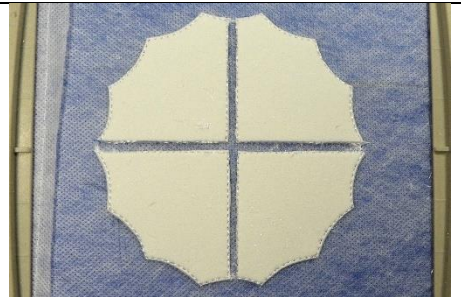

8. Place the Puffy foam over the placement stitches (make sure all placement stitches are covered).

9. Sew #2 in the Color Sequence Chart. These stitches will attach the foam to the stabilizer.

10. Remove hoop from machine and “carefully” cut away foam from the design. . .do not cut the stabilizer.

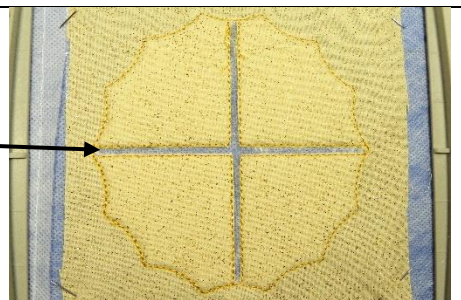

11. Place the Heat-N-Bond, backed, front fabric piece over the foam and secure in place with tape or pins.

12. Return hoop to machine and sew #3 in the Color Sequence Chart. These stitches will attach the fabric to the foam and stabilizer.

13. Remove hoop from machine and “carefully” cut away the fabric **only from inside the design** as shown in the photo.

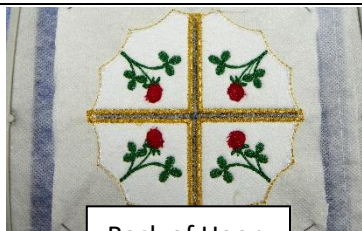

14. Return hoop to machine and sew #4 in the Color Sequence Chart. These stitches will create the satin stitches and top stitches around the "INSIDE" of the design.

15. Sew #5, #6, and #7 in the Color Sequence Chart. These stitches will create the flower design on the drink marker.

16. Remove hoop from machine, turn up-side-down on a flat surface and place the Heat-N-Bond backed, fabric piece over the back of the design. Secure in place with tape (or pins from the front of the design).

Back of Hoop

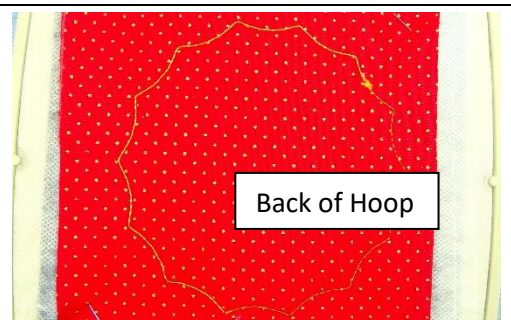

Back of Hoop

17. Return hoop to machine and sew #8 in the Color Sequence Chart. These stitches will attach the back fabric pieces to the project.

Front of Hoop

Back of Hoop

18. Remove hoop from machine and carefully cut away excess fabric from the front and back of the hoop.

Back of Hoop

Front of Hoop

19. Return hoop to machine and sew #9 in the Color Sequence Chart. These stitches will create the satin border and top stitching around the project.

20. Remove hoop from machine and project from hoop.
21. Cut away excess stabilizer from around the project-leave about ¼ inch or so to prevent cutting stitches.

22. Hold the project under “running water” to remove the stabilizer. Fold out the “flaps” and let the water run into the inside to make sure the stabilizer underneath the flaps is dissolved. The puffy foam should not be sticky after it’s water bath.
23. Press between paper toweling to remove excess water. Let dry and your project is ready to use.

For the other six designs, the same instructions can be used. They may differ in the number of sections in the Color Sequence Charts necessary to complete the flower designs, but the first four sections and the last two sections of the Color Sequence are all the same. I have included the Color Sequence Charts to help in creating the other designs.
