[Baby Book Instructions](#)

Published Jul 29, 2008 in [Instructions](#)

Please Read All Instructions first before starting.

### Supplies:

Fabric of your choice for front & back

Tear-a-way or Vilene wash-a-way

Threads

Cotton Batting(optional)

Temp. Spray adhesive(I use KK2000)

### BABY

Color 1 - placement stitch

After stitching placement stitch, spray stabilizer lightly with temp spray, place cotton batting over stitching then spray cotton batting and lay fabric over top of batting.

Color 2 - tack down fabric & batting to stabilizer.

Remove hoop from machine and trim around stitching being careful no to cut threads. Return hoop to machine.

Color 3 - zig-zag stitch over edges.

Color 4 - star

After stitching color 16 remove hoop and trim fabric close to stitching. Return hoop to machine.  
Color 15 - zig-zag.  
Color 16 - Button holes  
Color 17 - Satin Stitch

You are finished, remove book page from hoop.

To use one side of book as a back page all you need to do is skip the last 4 color changes, when you remove it from your hoop trim just out side the edge stitching as this will help as a guide for lining it up.

You will then insert design and finish off the page where you place the back.

I used gross grain ribbon to attach the pages. You can use what you like.

Hope you enjoy!
