

# FSL-3D-Tulle-Butterfly-4x4-NLS

## Instructions

There are two parts to this butterfly project; top-small-butterfly and bottom-larger butterfly. The filenames are shown in the chart below.

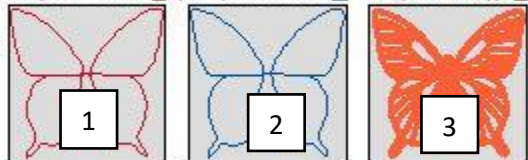

### Materials/Cutting Chart

Materials	Number & Size of Cuts
Tulle	2 cuts at 4x4 inches
Water-soluble Stabilizer	Enough for 2 hoopings in 4x4 inch embroidery hoop
Hot Glue	Small dot to glue body pieces together
Threads	Choice of colors-Bobbin & Needle thread same color

The Color Sequence Chart below will be referenced throughout these instructions.

### Color Sequence:

Th.1(Scarlet Flame: 90) Th.2(Baltic Blue:574) Th.3(Oriental Popple:9058)

Printed by Generations(TM), Copyright 2002-2007, All Rights Reserved.

1. Cut two pieces of "glitter tulle" (Organza can also be used-just cut 1 piece).
2. Hoop water-soluble stabilizer in a 4x4 inch embroidery hoop, attach to embroidery machine and transfer design file to machine (NLSEE1809-4x4).
3. Thread needle and bobbin with same color thread.
4. Sew #1 in the Color Sequence Chart. These stitches will create the placement stitches.
5. Remove hoop from machine, place on flat surface and place the two layers of "glitter tulle" over the placement stitches. Secure with tape.

6. Return hoop to machine and sew #2 in the Color Sequence Chart. These stitches will attach the tulle to the stabilizer.
7. Remove hoop from machine and carefully cut away excess tulle from around the design.
8. Return hoop to machine and sew #3 in the Color Sequence Chart. These stitches will complete the satin stitches of the design.
9. Remove hoop from machine and project from hoop.
10. Cut away stabilizer from around the design. Leave at least ¼ inch to prevent cutting stain stitches.
11. Place design in warm water. Just until the outside ¼ inch of stabilizer has dissolved.
12. Remove from water and blot design on a paper towel.
13. The wings need to be bent upward, so bend them upward and put them aside to dry. You can use a clip on the bottom of the body to hold the wings in place.
14. Repeat the steps 1-13 for the bottom butterfly (NLSEE1810-4x4).
15. Once both butterfly parts are dry, connect the two parts with a drop of hot glue. Press in place. Your butterfly is complete.
