16x26
20x30

6x10"
8x12"

WHAT IS NEEDED:

Foam 1 cm
Padding 1 cm
Felt or fabric of your choice

STEP TO MAKE THE HOUSE

Place the tear-off stabilizer in the hoop - Embroider the position trace

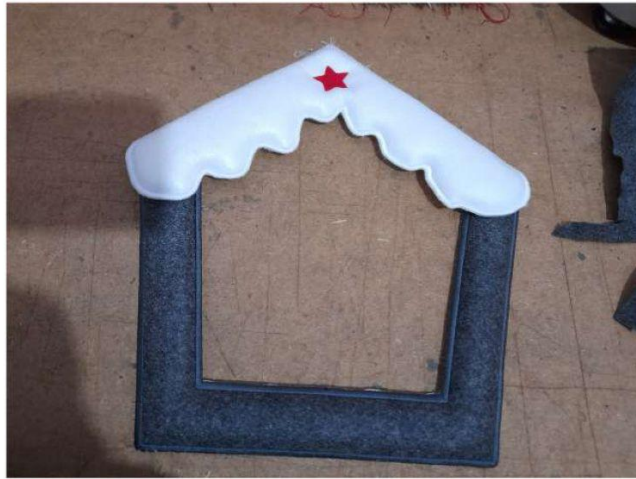

Place down the foam rectangle - Embroider the next seam

Cut out the template - Place the padding on top of the foam.

Embroider the next seam - Cut out the shape

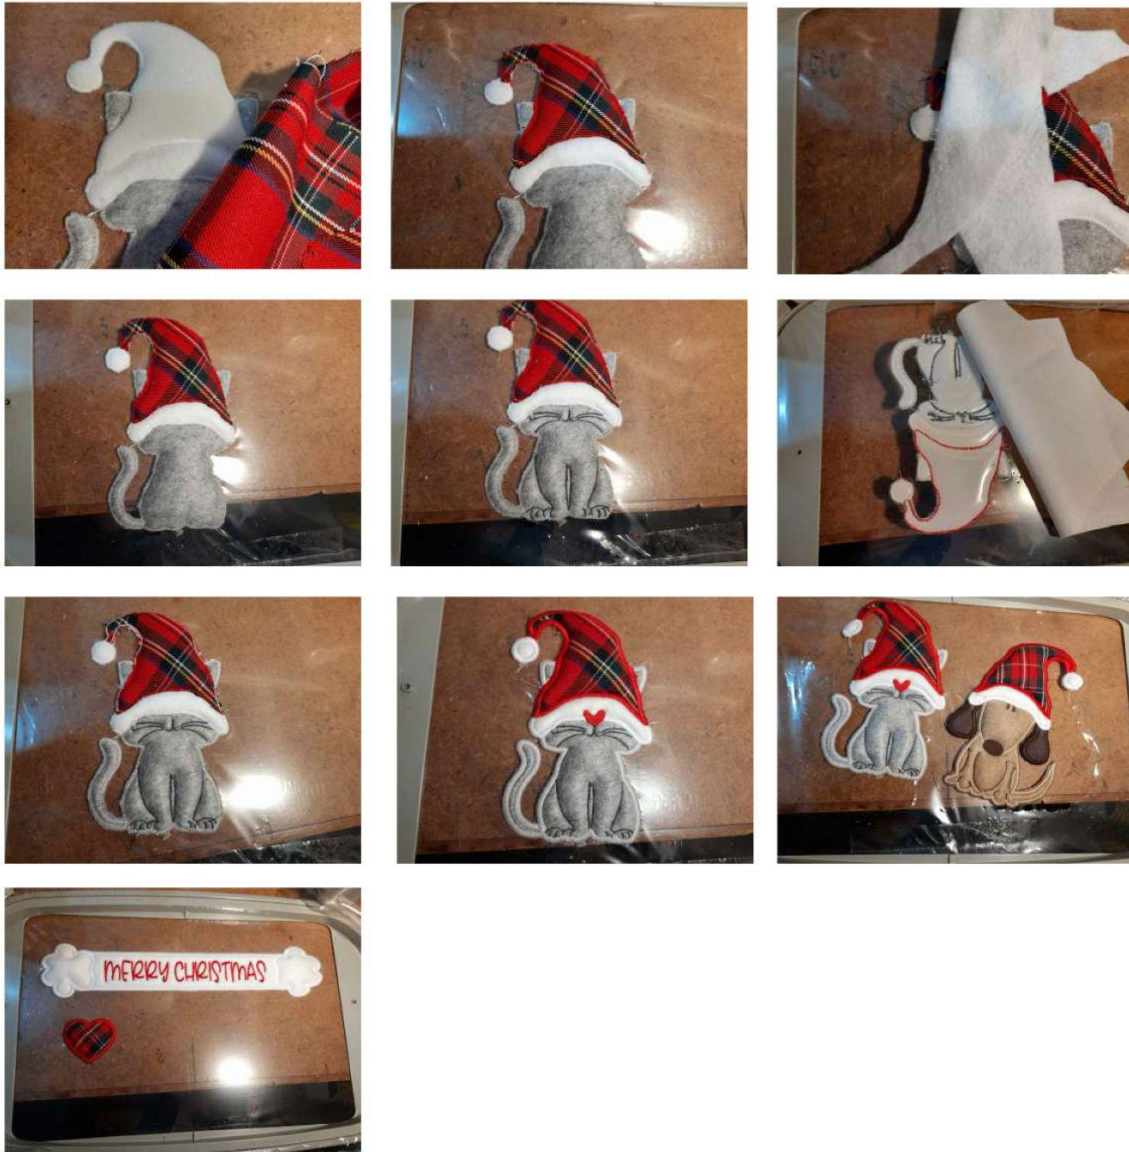

Place the outer fabric on the right side of the hoop, embroider the star, turn the hoop over and fix the lining on the back - Embroider the next seam, cut out the excess fabric

Finish with the last seam - Perform the thick operations for the underside of the house

STEP TO MAKE DOG AND CAT

To be a gnome cat we will only use foam
 I embroider the position trace, place it on top of the foam, cut out the outline
 I continue with all the parts of the applique. When I have finished with all the applications I turn the hoop over, fix behind the lining, embroider the next trace and cut out the excess fabric both above and below, I finish with all the covering
 I perform the same operations also for the dog and for the banner and heart

I decorated with small flags 2 cm high and two small bows, join all parts with fabric glue or hot glue.
