

CHEF EMBROIDERY DESIGN SET

9 Designs for the 4x4in hoop and 9 Designs for the 5x7 hoop.

CHEF HAT design is for applique:

Directions:

Hoop Stabilizer and stitch the first color,

Color 1 is your Placement stitch

Place fabric over the Placement stitch making sure that all the material is at least 0.5 inches covering the Placement stitches.
Stitch color 2

Color 2 is your tack down stitch

Remove hoop but do not remove your fabric! Carefully trim your fabric as close as possible to the stitches without cutting into your stabilizer or stitches. Replace hoop onto the machine. Stitch the next Placement stitch

Continue these steps until all areas (3) have been done. The last 2 stitch colors are for the applique satin stitch and the word CHEF on the front of the hat.

The **BOWL** design contains a knockdown stitch under the wording and this requires strong stabilizer and WSS for stitching the knock down stitches and the wording.

This design with the knockdown stitching is perfect for towels and other items that have a high pile or nap to them.
